NOTICE: NRSE 4600 Requirements

This notice is for all students who need to take NRSE 4600. If you have already taken and received a passing grade in the class please disregard.

The capstone nursing course for your program, NRSE 4600, includes an indirect clinical capstone project. This capstone project consists of a 21-hour project in which you must work with a registered nurse preceptor who holds a BSN degree or higher. The goal of the capstone project is to facilitate your transition into baccalaureate nursing. The project does not need to include direct patient/client care.

Please send an email to your advisor requesting to be added to NRSE 4600. Please include in the email your PID number, the course number, the class number, and the start date you prefer. Every student who requests to be enrolled in NRSE 4600 will see a Blackboard course entitled “NRSE 4600 Clinical.” All students must submit the preceptor and project proposal forms found on the Blackboard NRSE 4600 Clinical course site and have them approved at least five weeks prior to the first day of the term for which they requested. Any student whose preceptor and proposal are not approved by this deadline will not be registered for the course. You should consider submitting your preceptor and project proposal well in advance of the deadline, in case revisions need to be made. Please carefully follow the instructions for submission included on the Blackboard NRSE 4600 Clinical course site.

Please note it can take up to 7 days after you request enrollment before you see the NRSE 4600 Clinical course. Once you are enrolled in the Clinical Course you will be emailed the link. You will not be able to access the course before you receive the link.

NRSE 4600 is the capstone course for the RN to BSN program. All other NRSE courses contribute to the knowledge base needed in order to ensure your success in NRSE 4600. Therefore, beginning Summer Semester, 2015, students will be required to take NRSE 4600 as their last NRSE course.

If you have any questions, please call the School of Nursing at: 740.593.4494.
